Introduction

Providing sustainable Construction & Engineering Designs that lasts a life time, tailored to your own taste completed with attention to minor details and within any budget.

Pioneers International Construction Company is a Saudi Construction & Engineering Design Firm with an International representation in Egypt.

Pioneers International Construction Co. was established in year 2000 (1421H). We started as Developed Methods Construction later changed to Pioneers International Const. Co. in year 2022.

We have been constructing and creating iconic Architectural & Engineering Designs for a total of 24 years in Saudi Arabia .

Our construction designers and project management team oversees the successful design executions on time according to the construction budget.

In this way Pioneers International Construction Company is fully committed to providing a continuous link between design and construction implementation, vision and practicality.

- g. 5. 6. 7. 8.
- Electrical Room with MDB Panels and DB Panels
 Power Supply for all equipment
 Complete ATS System with UPS
 Lighting System
 Wiring and Wiring Devices
 Sound System
 Complete Chilled Water Line for equipment
 Complete Water Supply for equipment
 Exhaust Duct Works for equipment
 Vacuum System for equipment
 Fire Fighting Works with complete Pump Room
 Compressed Air System with Equipment
 Air-Conditioning Works for
 French Line (Package Unit)
 American Line (Package Unit)
 Air-Conditioning for all offices (Duct Split) 9.
- 10.
- TI.

Afia Oil International – Industrial Area III – Chillers & FCU Installation

- Supply & Installation of YORK Chillers
- Supply & Installation of Pump Set for Chillers
- Supply & Installation of Control Panels
- Supply & Installation of MDB on roof 4.
- Power supply 5.
- Supply & Installation of BMS (SKADA system) 6.
- Programming and integration
- 8.
- Supply & Installation of Exhaust Fans (roof mounted)
 Supply & Installation of Dust Particular collection units
- Supply & Installation of Sand Trap Louvers
- Supply & Installation of FCU for Production, Store and Dispatch Areas specially for Cold Storage Areas
- Steel structure and Steel Bases for all Equipment
- Complete network of Chilled Water Pipes 13.
- Fiber Glass Insulation / Rubber Insulation
- Aluminum Cladding
- Water treatment for whole system 16.
- Maintain Temperatures for 17.
- Production area 180C
- Store and Dispatch Area 260C b.
- Cold Storage Airea 50C

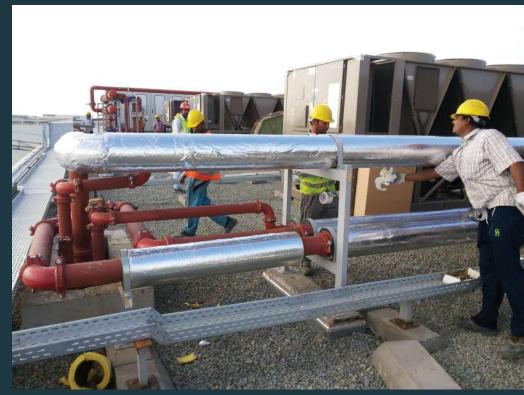

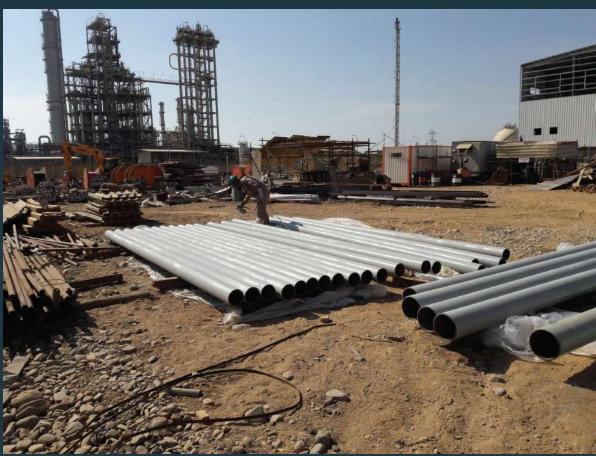

NATPET - Yanbu Industrial Area

- Supply & Installation of Chillers, AHU, FCU
 Including Chilled Water Pipes, Duct Works, Sand Trap Louvers etc.
 Tig Welding for all chilled Water Pipes
 Fiber Glass Insulation and Aluminum Cladding
 Water Treatment for complete system
 Installation of complete Pump Room
